Founder and Managing Director

Proper Oils

Waste cooking oil collection, local refining, & supply of biodiesel

&

“making sustainability tangible locally”

Collection of Waste Cooking Oil

- Proper Oils collects Waste Cooking Oil from caterers:
 - Collect from **+1700** caterers
 - Regenerating over **½ million litres** of waste p.a.
 - Work in partnership as preferred collector with 3 local authorities - **Ealing, Croydon and City of London.**
 - Operational for **over 4 years**

Produce biofuels locally, made exclusively from Waste Cooking Oil

PLAY VT

Example of different types of Biodiesel Customers

- Taxi company – who differentiates itself by their focus on environmental sustainability
- Waste company
- Local Authority

What makes Proper Oils different?

- We operate **local-scale** – we have designed the business model and the refineries to be replicated to:-
 - Minimise the cost of collection & delivery
 - Ensure everyone know what happens to the oil
 - Demonstrate the benefits of recycling locally by costing out the carbon saved - for both suppliers of Waste Cooking Oil, and users of the Biodiesel produced
