FleetEvolution

The employee demographic

60% of employees have a drive/garage

The average UK employee only drives more than 200 miles 6 times a year (our research)

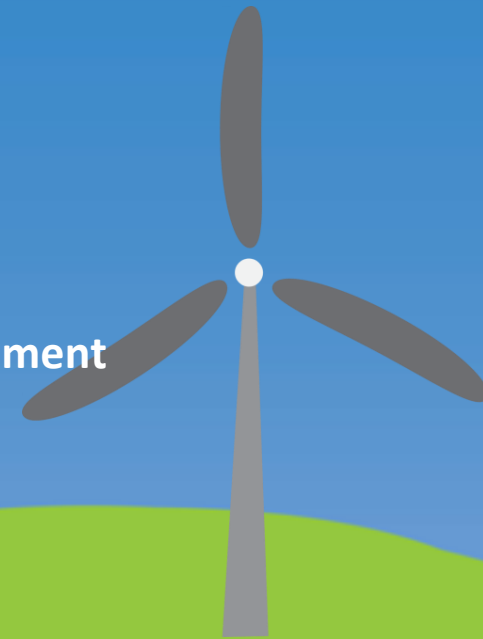

Employees are currently 'curious' about electric cars

Only 2% of employers have car salary sacrifice in play

Only 5% of employers realise you can salary sacrifice for a car

Employers are increasingly concerned about CSR, employee wellbeing and recruitment

Clean air zones having increasing impact

Common ev myths

No demand

Too expensive

No charging infrastructure

Poor range

“if you have a drive or garage you have all the infrastructure you will ever need”

Introducing the Flexible salary sacrifice car scheme

No minimum volume, no cost for employer

No leaver risk

Free home charging, 1 workplace charger per 5 ev's ordered

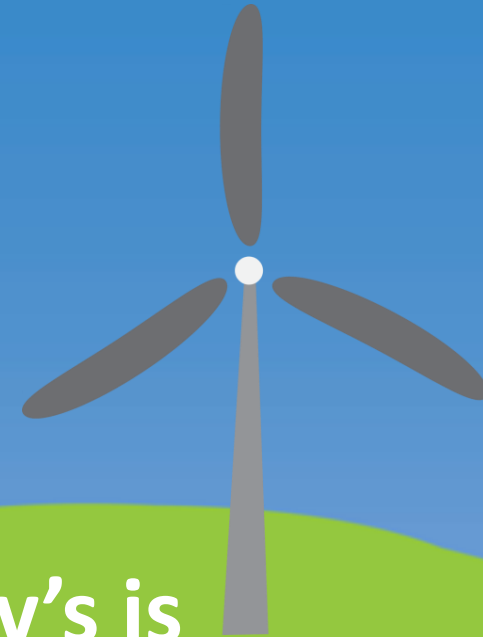

1 monthly deduction includes everything but electricity (can be bundled in)

Up to 45% cheaper than retail (ipace for £520 a month typically, egolf £300)

'Swap' car for RDE2 diesel for set amount of days

'Swap' for mpv, van or minibus when needed

The main change we need to promote ev's is
one of mindset
