

Air quality action

We enable **Internet of Things** technology

We offer **Software as a Service**

We are the **'H'** in **Health and Safety**

Opportunity Ahead

Air quality & the drive to Net Zero are the major disruptors

Cities reliance on road transport

London Facts*:
960M tonnes/annum
26M tonnes/day

Diesel is key fuel for HGV
motive power

Alternatives:

- Electric
- Electric Hybrid
- CNG
- Hydrogen
- Biomethane
- Bio Diesel

* Freight Transport Association (11/2019)

11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

EMSOL purpose

The EMSOL system empowers organisations to take **specific** actions for improving quality of the local environment. This is through **targeted** air and noise pollution identification which benefits the communities our customers operate in.

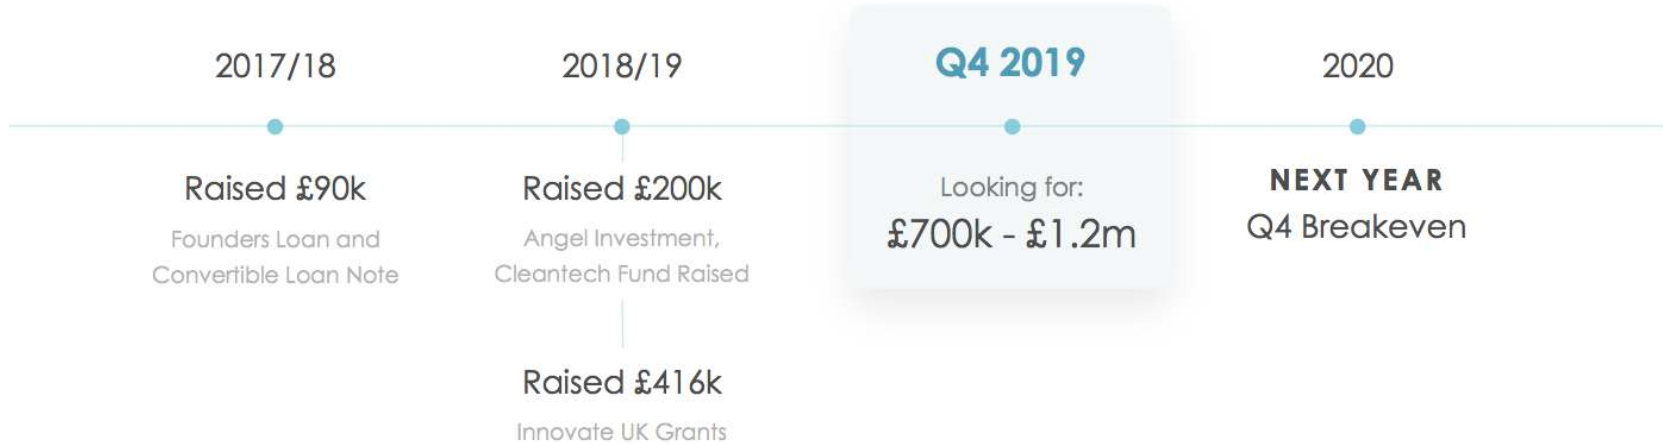

Traction: **Pilots to Roll Outs**

Croydon Target: **200+ major sites to be monitored**

**CROYDON
COUNCIL**
www.croydon.gov.uk

EMSOL helps us to target enforcement against non-compliant site vehicle activity and pollution - Croydon Council

Investment Case

Use of fund

20% Product development

40% Team expansion

40% Sales & Marketing

Let's work together to
manage air quality
